Sep 2025

Profile

I'm Vedant Dighe, a Diploma student in Information Technology with a strong focus on web development.

I'm passionate about solving real-world problems through innovative coding and exploring emerging technologies.

Projects

- 🌿 **Greeny** – Plant & Gardening Website

Tech Stack: React (TypeScript), Tailwind CSS, GSAP

A modern, responsive plant and gardening website featuring smooth GSAP animations and an eco-themed UI. It showcases plant categories, care guides, and includes a contact section for inquiries.

- 🏋️ **Athlo** – Fitness & Workout Web App

Tech Stack: React (TypeScript), Tailwind CSS

A fitness-focused web app offering various workout categories and motivational content. Built with responsive design and modular React components to ensure a clean and engaging user experience.

- 🏠 **Home Design** – Interior Design Website

Tech Stack: React (TypeScript), Tailwind CSS, Framer Motion

An interior design website that highlights home makeover ideas and past projects through smooth animations. It emphasizes elegant visuals and a responsive layout for an optimal viewing experience.

Work Experience

Front End Development • Internship

Prodigy Infotech, Virtual

Extra Curricular Activity

- Participated in painting competitions, showcasing creativity and skills related to art.
- Enjoy listening to music as a way to stay inspired and focused.
